I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The FDA has no clue as in what's good for me, who my doctors are and where these compounded meds come from. I was suffering from Anxiety, Depression and almost lost my marriage before I discovered natural Hormones. It has literally saved my life. These compounded Hormones are not accessible through our local pharmacies. I will fight for this! You need to concentrate on things that are harming people NOT "helping people"!
